“A great environment for learning, teaching, and working” - Dr. Joseph Fiorellini, Periodontics Dept. Chair

Named for two former Penn faculty and periodontics pioneers, the School of Dental Medicine’s periodontal clinic includes 18 operatories, two surgical suites, and a recovery room. The latest in digital radiography and digital instruction offer state-of-the-art capabilities for dental care and teaching. Modular casework dividers provide patient privacy and support facilities for the students and dental professionals.
